

MORRI PRASANNA

Aspiring AI/ML Engineer

Hyderabad, Telangana | +91 9502635394 | prasannamorri72@gmail.com
linkedin.com/in/prasanna-morri-502076353

PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning with hands-on experience in Python, Machine Learning, Deep Learning, Generative AI, NLP, LLM fundamentals, and Data Analytics. Experienced in AI projects involving image classification, adversarial attack detection, deepfake generation and detection, dataset preprocessing, model evaluation, and AI workflow optimization. Completed a Generative AI internship with practical exposure to AI-based applications and data-driven problem solving.

EDUCATION

DRK Institute of Science and Technology 2022 – 2026
B.Tech – Computer Science Engineering, Artificial Intelligence & Machine Learning CGPA: 7.81

Telangana State Residential Junior College 2020 – 2022
Intermediate – MPC CGPA: 8.65

TECHNICAL SKILLS

Programming: Python, SQL

AI/ML: Machine Learning, Deep Learning, Generative AI, NLP, Large Language Models (LLMs)

AI Applications: Image Classification, Model Evaluation, Data Preprocessing, Data Analysis, AI Workflow Optimization

Libraries/Frameworks: TensorFlow, OpenCV, NumPy, Pandas, CNN

Tools: Git, GitHub, Google Colab, MS Excel, Google Sheets

Core Skills: OOPs, Problem Solving, Teamwork, Communication, Collaboration, Project Coordination

INTERNSHIP EXPERIENCE

Generative AI Intern – Prodigy Infotech August 2025

- Worked on Generative AI concepts, AI-based applications, and intelligent workflow solutions through internship assignments.
- Assisted with dataset processing, analysis, and AI workflow optimization for machine learning tasks.
- Gained practical exposure to AI model development, evaluation, and data-driven problem solving.
- Strengthened technical implementation, collaboration, communication, and analytical skills through team-based assignments.
- Received a Letter of Recommendation recognizing technical skills, initiative, problem-solving ability, and aptitude for learning.

PROJECTS

Adversarial Attack Detection and Robust Model Training for Image Classification Team Lead

- Led a team developing a robust image classification model using Deep Learning techniques against adversarial attacks.
- Applied Deep Learning techniques to image classification and secure AI model development.
- Performed dataset preprocessing, model evaluation, and workflow optimization for model development.
- Coordinated project planning, task execution, team discussions, and collaboration throughout development.

Technologies: Python, TensorFlow, CNN, Deep Learning, NumPy, Pandas

Deepfake Media Generation and Detection in the Generative AI Era Team Lead

- Led a team project focused on deepfake generation and detection using Generative AI and Deep Learning models.
- Explored AI-based media analysis, synthetic media detection, and intelligent content verification techniques.
- Performed dataset handling, preprocessing, classification, and AI model evaluation for media analysis.
- Led project planning, collaboration, communication, and execution throughout the project.

Technologies: Python, OpenCV, TensorFlow, Generative AI, Deep Learning, CNN

CERTIFICATIONS

- Generative AI Internship – Prodigy Infotech
- Data Generative AI for Data Analytics Job Simulation – Forage
- Deloitte Data Analytics Job Simulation – Forage
- AI & Machine Learning Job Simulation – Forage (THUB)
- Introduction to Generative AI Studio – Simplilearn SkillUp

ADDITIONAL INFORMATION

Languages: English, Hindi, Telugu **Interests:** Artificial Intelligence, LLMs, Intelligent Systems, Emerging Technologies
